

More Than A Name

Module: NOW WHAT?

If you've been following the studies in order, you have spent the last few months looking at your identity in Christ, and what that means. As Christians, we are well aware that this only scratches the surface; what happens now? This module is designed as a **conclusion** to the other modules and focuses on the "how." Now that we are confident in our identity in Christ, how do we live that out? What do we do with this? The lessons in this module can be done in any order.

In Lesson 1, **God's marketing Strategy**, we will ask the question what is it that other's see that shows our faith? What do we do or say that allow others to say, "They are definitely followers of Jesus. "

In Lesson 2, **The Body of Christ**, we will look at what it means to work together as Christians. We each have our own unique identity in Christ, so how does that all come together to form the Church?

In Lesson 3, **Armour of God**, students will gain an understanding of how trials and temptations come, and what we can do. It will help give them an understanding of why knowing the Scriptures is important, and how a disciplined prayer life actually helps.

These are not exhaustive. A good study on the book of Corinthians will reveal many other ways in which we live out our identity. Feel free to incorporate other Bible studies of your own into this module.
