

In the Bedroom

It would be pointing out the obvious to say that sexuality is on the forefront of many teenagers' minds! And yet this important topic is sometimes excluded from the Christian experience or handled like a dangerous explosive. In this series, Sex: The Good, The Bad, and The Ugly, we explore human sexuality from a biblical perspective. The first lesson, **Sex: the Good**, explores God's good will for sexuality. The second lesson, **Sex: the Bad**, explores the boundaries of God's will for sexuality. And the third lesson, **Sex: the Ugly**, explores the consequences of operating outside God's will for sexuality. Many times we teach sexuality in ways that leave students afraid, confused, and full of shame. Yet sexuality is part of our connection to one another, and an important part at that! This series attempts to teach sexuality in a healthy and holistic way, allowing students to have real dialogue on the subject, without feeling judged for wanting to learn. Enjoy!
